

# AsthmaToday Widget!

The Asthma Society of Canada (ASC) has launched a new AsthmaToday Widget!

The AsthmaToday Widget is a useful tool for people living with asthma and associated allergies to stay informed on important issues and information needed to plan your outdoor activities.

The AsthmaToday Widget can be downloaded to your computer or laptop to gain instant access to the Air Quality Health Index (AQHI), available for a number of Canadian cities, local weather forecasts, and the latest news updates from the ASC on programs, educational materials, and research.

The AsthmaToday Widget software is easy to use and can be downloaded free of charge from the ASC's website:
